

Arrival/Departure Traffic and Walking Map

We have worked diligently to provide safe procedures for students entering and exiting our campus. As you prepare for your student to return to campus, take a moment to study this map for drop off and pickup. Most importantly, please note that students should be dropped off in the West parking lot near the water tower, not along 5th Street as this is reserved for busses. The only entrance and exit for the West parking lot is off of 5th Street, and when exiting the lot, it is a RIGHT TURN ONLY. Students who walk to school are asked to make use of the crosswalks, which will be manned by Clark staff for their safety in crossing major streets. All students will need to report to a health check station **before** entering the main campus.

Pickup at the end of the day should mirror morning drop off. Parents can drive through the West parking lot, and students who walk should make use of the crosswalks.

Please also remember that at this time our campus is closed to all visitors. Thank you.
